

Orphan Sponsorship Made Simple

Connecting Orphans with Sponsors Seamlessly

Data Collection Process:

1. Orphan data and photos are gathered by our team in Gaza from their guardians and sent to our team in Egypt.
2. The collected data is verified for accuracy, uniqueness (that it is not duplicated in any other organization's record) and completeness.
3. Editors then upload orphan profiles, including photos and background information, to our portal.
4. The profiles become available for selection by partner organization and individual donors.

For Partner Organizations:

Our Partner Portal allows organizations to efficiently support orphans in Gaza by selecting them in bulk (100, 500, 1000, etc.). The process is simple:

1. Register at <https://partner.akeurope.org/register> to gain access to the Partner Portal.
2. Browse available orphan profiles and select the number of orphans you wish to sponsor.
3. A payment invoice is generated for a direct bank transfer to AKEurope in Norway.
4. Order is verified by akeurope team in Norway and selected beneficiaries are added to partner's account.
5. Regular reports, including bills, receipts, and health updates, of subscribed orphans are added on portal & notified on sponsor's email.

For Individual Donors:

Our website provides a direct way for donors to support orphans:

1. Browse and select orphans to sponsor at <https://akeurope.org>.
2. Complete a secure payment to activate your sponsorship.
3. Gain access to the Donor Portal to manage payments and view sponsored orphans.
4. Regular reports, including bills, receipts, and health updates, of subscribed orphans are added on portal & notified on sponsor's email.

Our mission is to create transparency and ease in supporting vulnerable children. Join us today and make a difference!
